

Alpha News October 2019

You may have noticed as reflected in our meeting minutes, that at the September Alpha Nu meeting, our committees convened for a short time and filled out a quick questionnaire about their goals and ideas. Some of the committees shared their ideas orally and I collected the written data. I was very impressed with the ideas that were generated and enthusiasm as a result.

To keep this momentum going, we are going to spend time at our November meeting fleshing out those ideas and coming up with concrete steps to make these ideas a reality. Input from all members of our organization is important and welcomed, even if your committee is all set and only needed in specific situations and even if you are not in a position to help with one of the projects at this time .

I encourage all of you to join us in November. Your participation is important.

Below is a brief summary of committee ideas that will be explored/developed:

- Tea with Famous Women Fundraiser (**Description attached**) This or some version may become an annual fundraiser. How can you help with this?
- Moon Catcher project- donate? participate?
- Bus trip for fun? To convention in Philadelphia July 2020
- Communication- Combining website and communication committees- revisiting facebook
- Literacy project- ideas? Reading to young students, young students reading to us?
- These ideas are not all inclusive. Members have brought forth other ideas as well. Do you have an idea to add?

I've also **attached committee lists** and contact information and am looking forward to a very productive meeting that will direct programs and activities in the future.

Wendy
